Personal Profile

As a finance analyst with extensive experience in SAP-based systems, spending control, automation, and the development and implementation of tools for reporting and data analysis, I excel in providing meaningful insights through data analysis and interpretation. I am enthusiastic about transitioning my career path from financial to a data analyst role, having dedicated the past two years to studying Python. My colleagues describe me as a smart, technically advanced individual who maintains a positive attitude in any situation. I am confident in my ability to leverage my financial analysis skills, technical expertise, and data-driven mindset in a dynamic and innovative environment.

I am happy to apply my financial analysis skills, technical expertise, and data-driven mindset to give input in a dynamic and innovative environment. I am confident in my ability to excel in a new role and contribute positively to the team and organisation.

Currently available for employment with valid work authorization.

- Excellent Python skills in using Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn and Beautiful Soup, Flask, Django, Selenium
- Proficient in data visualisation in Power BI and Excel
- Strong interpersonal skills and ability to work effectively in a team environment.
- Ability to identify patterns and trends
- Comprehensive understanding of financial concepts
- Strong analytical skills with a deep understanding of the mathematics behind statistical instruments..

Professional Experience

GTN & Performance Analyst – Colgate Palmolive

Jan 2020 – Jun 2023

Colgate-Palmolive is a renowned global consumer goods company with a strong presence in the market. With a rich heritage spanning over 200 years, Colgate-Palmolive is recognized as a leader in oral care, personal care, home care, and pet nutrition products. The company is committed to providing innovative and high-quality products that improve the health and well-being of millions of people around the world.

Responsible for:

- Control GTN (Gross to Net) expenses, ensuring adherence to budget and financial guidelines.
- Manage Customer and Vendor master data maintenance in SAP.
- Create and submit reports on E-commerce substream to Africa/Eurasia division.
- Manage spending control processes for customers, including proof of performance, agreement alignment, and compliance with company guidelines and policies.
- Conduct data analysis and interpretation to provide meaningful insights for business decisions and financial performance improvement.
- Identify opportunities for process improvement and automation using Excel, BI, and VBA skills to enhance financial processes and reporting efficiency.
- Participate in cross-functional activities and projects with Sales and Customer Service & Logistic departments.

Key Achievements:

- Designed and implemented an automatic price checking tool
- Developed a new P&L report for E-commerce
- Played a key role in the migration from SAP S4 to HANA as a master data expert

Responsible for:

- Worked in three different departments: Budgeting and Planning, Accounting, and Analytical Finance
- Evaluated the financial viability of new products
- Participated in budgeting and MYR (Mid-Year Review) processes.
- Processed incoming documents in SAP, ensuring validity and accuracy, and managing payments.
- Monitored customer activities in collaboration with sales managers and prepared weekly reports on customer debts.
- Checked pricing in orders and quarterly reports for indirect customers.
- Prepared analysis and presented results for the Indirect substream of the business.

Key Achievements:

- Successfully completed a cross-functional VBA Excel template for generating order forms
- Conducted analysis on transitioning from yuan to dollars as the currency for transactions with China.
- Contributed to a cost restructuring project due to the consolidation of countries into a single HUB.
